Location	Gundi, Harabisauna, Kalitar and Chauding village of in Lothar VDC of Chitawan District
Partners' name	Environmental Camps for Conservation Awareness (ECCA), Shanti Griha Nepal (SGN)
Start date	April 2016
End date	September 2016
Project type / technique	Solar Power , Education
No. of beneficiaries	220 household as well as school going children
Project description	<p>Unica has been working together with ECCA since few years to provide solar lamp in the Chepang villages of Chitwan district. This project aims to support the school-going children with a solar lamp that would help them to do their homework in the evening.</p> <p>This product has a health benefit as it may replace the kerosene (wicked) lamp. And, the project also helps to diminish the school absenteeism as the charging plate for the solar lamp is placed strategically in the school so that the child has to take one lamp everyday to the school to get it charged.</p> <p>In addition, the project has been providing a water filter, first aid kit in the school including the trainings on keeping school environment neat and clean. The repair training for the solar lamp is also conducted in each cluster.</p>
Financial contribution	<p>The Partner(s) : 8%</p> <p>Community : n/a.</p> <p>Unica: 92%%</p>
