

Project Fact Sheet

PROJECT NAME	Improved Cooking Stove in Salyan
Location	Salyan VDC, Ward No. 5, 6 & 8 of Kaski District
Partners' name	Nepal Red Cross Society (NRCS) Kaski
Start date	January 2016
End date	August 2016
Project type / technique	Improved Cooking Stoves
No. of beneficiaries	130 household, 599 population
Project description	<p>Open fire has caused many health issues, especially for women who mostly spend time in the Kitchen in Nepal. In addition, excessive uses of firewood would invite environmental degradation and many natural calamities. So, Unica has been working together with the NRCS Kaski to implement Improved Cooking Stove (ICS) project in the hilly villages of Kaski district.</p> <p>Lesser use of firewood and no smoke inside the house are the main characteristics of the ICS we have been introducing. As the firewood is getting expensive, this project is effective financially as well.</p> <p>The villagers get awareness training on how to use the oven and how to clean it. There is a local committee formed to coordinate with the household in this matter.</p>
Financial contribution	Government of Nepal / AEPC: 26%
	Community : 17%
	Unica: 57%
